Dear Mr. Mocek:

This is in response to your recent public disclosure request, dated and subsequent clarification, dated Jul 24, 2013 for Seattle Department of Transportation documents related to the SDOT database of automatic vehicle location data.

In my previous correspondence to you, dated July 19th and July 24th, a description of what records were maintained by SDOT and how they were maintained was provided.

We have now completed the necessary research and have located documents responsive to your request. They are enclosed.

Pursuant to the Seattle Municipal Code, photocopying charges are 15¢ for each standard-sized page plus postage, if applicable. As you are receiving these electronic records via CD, this fee does not apply. As a courtesy, the \$1.00 fee for materials has been waived.

Thank you,
